Show Progress Made.

The sixty days allotted by law for the session of the General Assembly are slipping by rapidly, and although the session is due to close just two weeks off, March 4, remarkably little legislation of State-wide importance has been enacted. There are sixtynine bills of general interest on the calendar of the House and nearly as many important measures pending in the Senate. The usual rush has begun, and from now until final adjournment there will be no time wasted, sessions being held night and day by both houses, rushing the Jegislative clerks and newspaper men to the limit of human endurance. So far nothing has been reported from the Committee on Constitutional Amendments. When the Stubbs House bill, for a constitutional convention, was killed early in the session, it was with the understanding that the committees would prepare amendments for ratification by the voters at the next general election, but up to this time it has been impossible to get even a quorum at the several meetings announced for the Committees on Constitutional Amendments.

The Judiciary Committees have announced Tuesday afternoon as the time for a hearing on all the antitrust legislation bills introduced. Representative Koonce, who has been the most insistent for antitrust legislation, says he will make a fight to have a subcommittee appointed to draft a composite effective antitrust bill.

New counties have claimed much attention since the present session opened, and now that Pledmont has been killed and Hoke created, interest centres in Avery county, the bill having passed the Senate. It is set for special order in the House on Tuesday might. The bill to create Ransom county out of portions of Wake, Johnston, Wilson, Nash and Franklin will be heard before the joint Committees on Counties, Cities and Towns Tuesday afternoon.
